Dear Valued Customers,

In order to give our customers a better packing method and also to meet the satisfaction from many of the clients, Gtop have taken the decision to deliver GPS modules on Tape & Reel instead of trays, the method we currently use.

This new packing will allow production lot set-up and tear-down much more efficiently, so starting from 01st April 2013, we will apply the new packaging method for orders.

Tape & Reel:

Tray:

Please find attached Tape & Reel specification description for the Gtop product lineup for your kind reference.

Gtop are flexible and will do whatever we can to fulfill your need. Please feel free to let us know if you have any questions!

Thank you for your continued support.
