

GlobalTop

GlobalTop Technology Inc.

Company Profile

We Make GPS Smarter Than Ever

2011 Q2

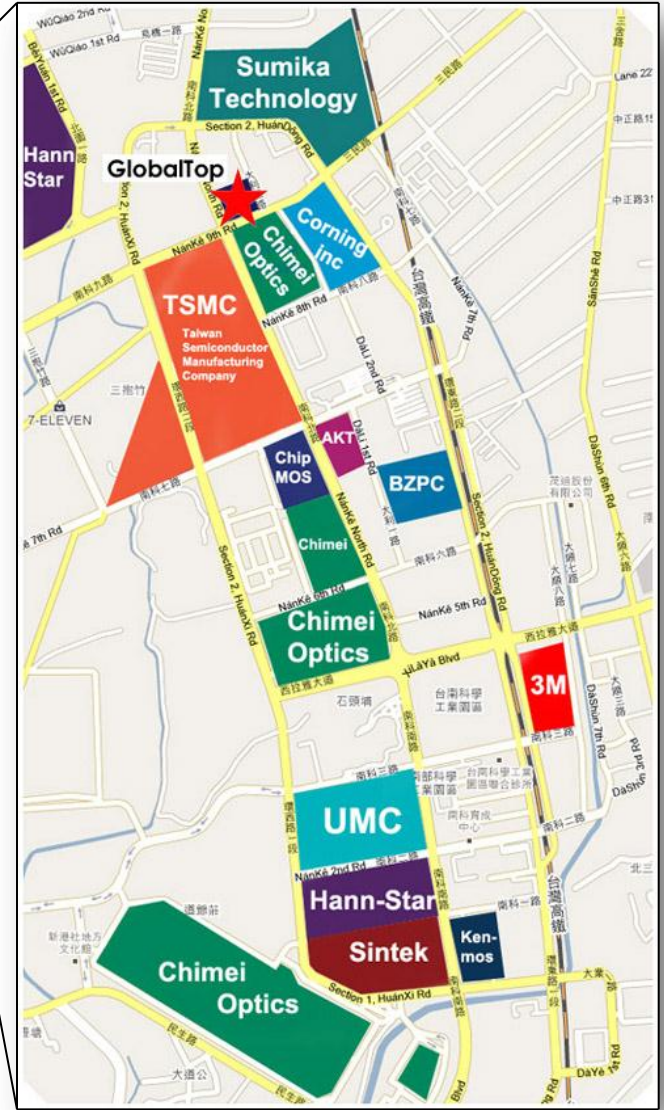

Who Are We?

- GlobalTop design, customize, and manufacture premier quality GPS modules.
- GlobalTop offers a variety of ready-to-use, or custom written firmware features that enhances the GPS modules' versatility and saves previous development time.
- GlobalTop specializes in working with our customers to bring out the potential of our products.
- Our motto is "Your Need is Our Mission".

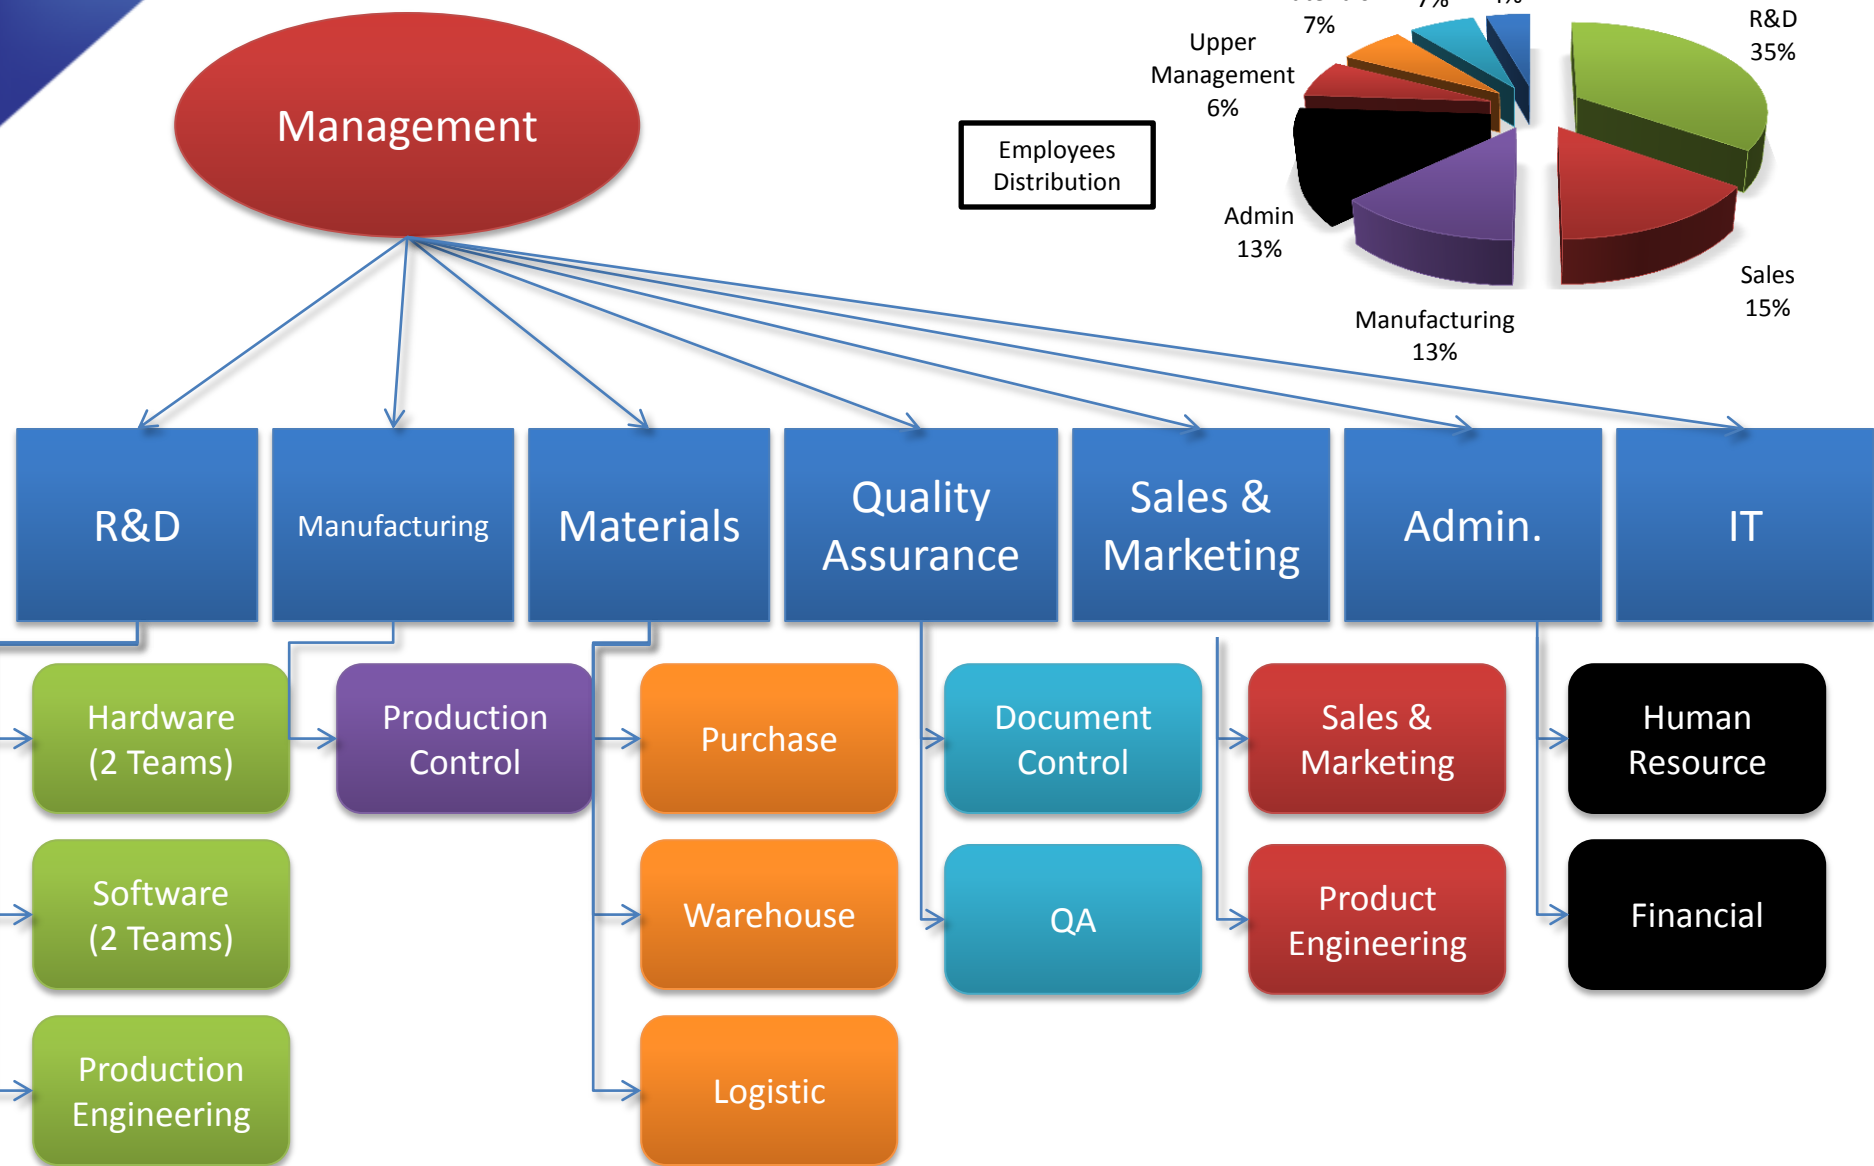

Company Information

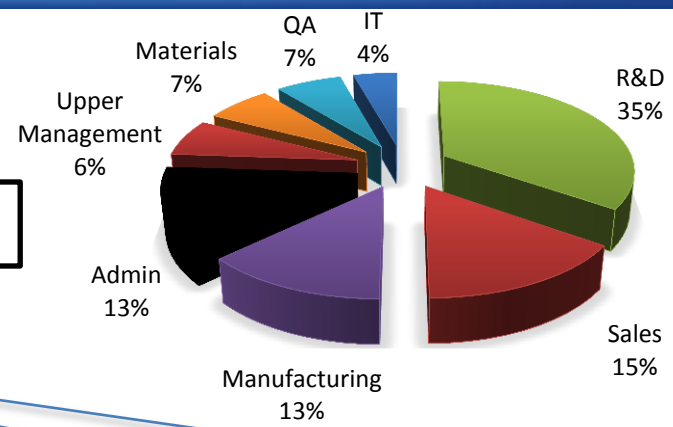

- Total Capital of 200 million NTD (6.75 million USD)
- 46 employees total, spanning across:
 - 4 RD Teams (2 for Software, 2 for Hardware)
 - Sales Team & Product Design Support Team
 - Purchase Team
 - Manufacture and QA Team
 - Finance and Human Resource Team
- Located in Taiwan, Southern Science Park in Tainan, with well integrated supply chain, and administration that enforces strict regulatory requirement.
- New 10,000 square meter facility: ensuring adequate manufacturing capacity for sudden high-volume rush orders.

Company Structure

Employees Distribution

- #1 GPS module supplier in Taiwan in terms of quantity
- Quality, easy to use, versatile GPS modules:
 - Designed with quality components (TCXO, Flash)
 - With comprehensive documentation
 - Standardized firmware customization
 - Evaluation-kit available
- Comprehensive design support and aftersales service
- Tight manufacturing and quality control with speedy logistics

- **“I think your company has earned a long term customer with the high quality service and support you are providing, much higher quality than any other overseas vendor I have dealt with.”** – Praises given to us after we modified a specific customized data output stream for timing applications.
- **“Thank you for all your help. I was very happy with your team’s prompt support response to our questions. We will address the noise issue in our next board design and I don’t anticipate any more issue.”** – Our technical support was able to solve their interference issue through hardware review
- **“We have now finished our testing and everything has been positive ;) The performance is as expected and the antenna present and short-circuit detection also works perfect.”** - From a satisfied customer who has switched to GlobalTop solutions

GPS Standalone Modules: Gmm-u1

GPS Modules Series:

GPS Standalone Modules [Gmm Series / SL Series]:

- External antenna connection only, very small form factor
- Suitable for experienced system designer

GPS Antenna Modules [Gms Series / PA Series]:

- Integrated passive antenna
- Easy to design with

GPS Modules Feature Groups:

LP (Low Power)

- New modules with switching mode power supply technology built-in
- Up to 50% power saving compared to old PA and SL Series
- 24 mA @ Tracking, 30mA @ Acquisition (Typical @ 3.0v)

J (Jamming Detect)

- Able to detect GPS jamming signal and sent warning via serial interface and hardware voltage level
- Auto sensitivity adjustment with additional power saving mode

GPS Antenna Modules: PA6B

GPS Antenna Modules: Gms-u1LP

GPS Antenna Module: Gms-u1LP

- **Low power consumption:**
 - 24mA @ Tracking / 30mA Typical @ Acquisition
- **Integrated ceramic GPS antenna**
- **Ability to connect to external active antenna**
 - Automatic switching to external antenna upon connection
 - External antenna shortage protection
- **-165dBm Ultra-high Sensitivity, 10Hz Update**
- **DGPS, RTCM, 1PPS ,USB Support**

GPS Standalone Module: Gmm-u5LP

- **Low power consumption:**
 - 24mA @ Tracking / 30mA Typical @ Acquisition
- **Popular Form Factor**
- **Antenna Advisor**
 - Active & Passive Antenna Detection & Notification
 - Open Circuit Detection & Notification
 - Short Circuit Detection & Notification
- **-165dBm Ultra-high Sensitivity, 10Hz Update**
- **DGPS, RTCM, 1PPS, USB Support**

GPS Antenna Modules: Gmm-u5LP

Firmware Customizations

Versatility in GPS module's firmware is a key integral part to GlobalTop's successful product lineup.

* More can be found on GlobalTop website www.gtop-tech.com under Products / Software Services

GlobalTop Firmware Customization Services

AGPS

fast position fix with preloaded ephemeris

BINARY MODE

outputs position in binary format for increase efficiency

PERIODIC MODE

saves battery by powering off unused components

DISTANCE CALCULATION

calculates line of sight distance between receiver and other points of interest

TIMING MODE

advanced 1 PPS control for synchronization equipments

DATA LOGGER SOLUTION

turns GPS receiver into data logger with additional flash memory

10 HZ UPDATE

fast refresh rate for high speed applications

LAST POSITION RETENTION

outputs last known position coordinates after losing GPS satellite fix

ONE SENTENCE

decreases calculation load on processor by simplifying output NMEA sentences

- **Comprehensive Documents and Software**
 - Datasheet & Application Notes
 - Design guides, tips and cautions
 - Reference Schematics
 - PMTK Command Documents
 - Mini GPS Tools, AGPS Tools, and Data Logger Tools
- **Direction Support from IC Chipset Supplier MTK**
 - GlobalTop is Alpha Site for MTK GPS Solution
 - Directly work with MTK on GPS features implementation and problem solving
- **Before & After Sales Technical Service**
 - Quick response to any questions (less than a day)
 - Customer design / schematic review
 - Tailor-made hardware and software customization

GlobalTop follows a strict work flow with the aid of advanced management tools to ensure the correct order ships to our customers on time, every time.

Customer Relationship Management

- Fast, Responsive, Customer Service
- Dedicated staff for problem solving

Firmware Manufacturing Control

- Hundreds of firmware combinations possible.
- Ensures the correct firmware is written onto your module

Quality Control

- Product management according ISO9001 (2009) / TL9000 standard
- Quality Inspections follows Standard Military Sampling Procedures (MIL-STD-105E)

- **Publications (Newsletter)**
 - New products / New firmware customizations
 - GlobalTop application trends and corporate information
 - Quarterly Release

- **Media Portal**
 - New improved website for easy to find information
 - Twitter and Facebook for instant update on documents and development news

- **Exhibitions**
 - **Active participation in exhibitions and events**
 - 2010 International Symposium on GPS/GNSS (Taipei / Taiwan)
 - 2011 Embedded World (Munich / Germany)
 - 2011 CTIA (Florida / USA)

Academics Community Support

- **Active involvement in supporting cutting edge and interesting applications using GPS**
 - NTU: National Park Mountain Climber Monitoring System using Zigbee
 - University of Illinois: Structural Health Monitoring System
 - University of Linkoping: UAV automatic control
